About us

Example Fencing Co is a family-run fencing business based in Exampleville, trading since 2015. Most of our work is timber paling and Colorbond boundary fencing, pool fencing and low retaining walls for home builders, commercial builders and local councils. We run two crews with our own vehicles and plant, so we can start when the site is ready. We turn up when we say we will and keep the site supervisor informed every day.

Trading since	2015
Structure	Company
GST registered	Yes
Typical job value	\$5,000 to \$80,000
Largest job	\$210,000

What we do

- Timber paling and Colorbond boundary fencing
- Retaining walls up to 1 m (timber and concrete sleeper)
- Pool and safety fencing
- Gates, including sliding and automated gates
- Temporary site fencing and hoarding
- Fence removal, repairs and insurance work

Who we work for: volume and custom home builders, commercial builders, local councils, schools and body corporates

Our people and equipment

Crew size	5 employees, 1 apprentice and 2 regular subcontractors, working as two crews
Supervisors	Sam Example (Director, 18 years in the trade) and Alex Sample (Leading Hand, 9 years). One of them is on site every day.
Tickets held	Construction induction cards (all workers), first aid (2), working at heights (4), forklift licence (1), traffic management (2)
Key plant and vehicles	3 utes, 1 tipper truck, 2 tool trailers, 1.7 t excavator with auger, skid steer loader, 2 concrete mixers, laser level

How we manage safety

- We have a written OHS policy, signed and dated by the Director, and every worker is taken through it at induction.
- We prepare a job-specific SWMS for high risk construction work before the work starts. Every worker signs on to it and a copy goes to the principal contractor.
- Every worker holds a construction induction card and completes the builder's site induction before starting.
- We hold a toolbox talk with each crew every week and keep a record of who attended and what was covered.
- Plant and equipment is checked before use. Faulty items are tagged out until they are fixed.
- We keep a hazardous chemicals register and safety data sheets (SDS) for the products we use.
- Incidents, injuries and near misses are reported to the site supervisor straight away and recorded on an incident report.
- Lost time injuries in the last three years: 0. Notices from WorkSafe Victoria in the last three years: 0.
